THIS FEBRUARY FURNITURE SALE

*Is the Most Appreciated Event
of Its Kind We Have Ever Held*

We are now nearing the end of the third week of the February Furniture Sale, and we can say without hesitancy that it has been the greatest sale of Furniture in our history. The home furnishers and every one who desires good furniture have been quick to see the values and the superior designs and construction here, with the result that buying has been active throughout the month.

The style of furniture has completely changed during the last two years. Where before you scarcely saw Period Furniture or reproduction correctly made, now it is demanded and can be had at a moderate figure.

Modern American designs and composites have failed to satisfy those who desire the RIGHT DESIGNS IN FURNITURE, and many factories now find it necessary to have a designer in Europe most of his time, sketching old originals—PERIOD MODELS, so that they can be correctly reproduced in this country.

Our stock of Furniture reflects this desire for Fine Period Designs, and in the sale you can get many elegant pieces at remarkable reductions from the customary value.

**There Is a Genuine Saving of 10 to 40 Per Cent on Every
Piece of Furniture in the February Sale.**
